

National Research Council, Trees and Timber Institute (CNR- IVALSA)
in collaboration with
COST actions FP1303 and FP1407
and Italian Society for NIR Spectroscopy - SISNIR

invite you for:

**Workshop: Application of NIR spectroscopy
in wood science and technology**
NIR & WOOD – SOUNDS GOOD! – second edition

April 19-21 2016
Trees and Timber Institute (IVALSA)
Via Biasi 75, 38010 San Michele all' Adige

OBIETTIVES

The purpose of the Workshop is to encourage dialogue at the international level and to exchange of experiences related to the research and applications of NIR spectroscopy for wood science and technology. The workshop covers all areas of bio-materials and related applications:

- wood science and technology
- tree breeding
- biomass/bio-energy
- timber construction and material performance
- cultural heritage
- recycling & reuse of wood
- wood modification
- industrial application / process monitoring

A special focus of the second edition workshop is on the **characterization of bio-materials and assessing environmental issues**.

Participants are invited to present their case studies or NIR-related research activities. Please submit a max, two pages of abstract of the contribution (including figures) by **March 20, 2016**. The abstract will be finally formatted by the Editorial board. The workshop proceedings will be registered with **ISBN number**. Hand on session and demonstrations of the NIR instrumentation will be organized as a part of the Workshop.

will contribute to the meeting and also present their

There is no any conference fee foreseen. Limited number of **COST travel grants** will be available for the Workshop attendants. Please contact us for any further details.
